

EYS Eco-Rating Form

Date: 27/05/21
 Producer: HAKAWERK
 Product: LAUNDRY DISINFECTANT

EYS Product Rating Legend	
Eco-compatible product	
Product w/ doubts and/or uncertainties	
Product w/ high environmental impact	

meta.consort

Life Cycle Phase	EYS Criteria & Colour Code	Global EYS Rating	#	Ingredients INCI Code Declaration according to EC 648/2004 and EU CoSing database	Ingredient Rating	Remarks on Ingredients																					
1. Extraction	Plant & mineral raw materials Minimal / no fossil raw materials Sustainably sourced raw materials Working towards green No mentions		1	Aqua																							
			2	Fatty alcohol ethox. 12-14 >=2,5 EO		Ethoxylation degree should be >4 and <7 EO																					
			3	Benzalkonium chloride		Cationic surfactant, high environmental impact																					
			4	Didecyltrimethylammoniumchloride		Cationic surfactant, high environmental impact																					
			5	Isopropyl alcohol		Aerobically & anaerobically degradable, from synthesis																					
			6	Absorbant odeur (sic)		Not an INCI nomenclature, might be clay

EcoBioControl Ingredient Rating Legend																											
		Eco-compatible material.																									
		Plant-derived (bio-based) material.																									
		Material exhibits doubts and/or limitations.																									
		Material with high environmental impact. To avoid.																									
		Unacceptable material!																									
		Legally prohibited material!																									
3. Packaging	Recycled material containers Virgin material containers No mentions																										
4. Distribution	Mention of specific actions Working towards green No mentions																										
5. Resorption	Green when extraction is 4/5 green Working towards green No mentions																										

*Resorption is the breakdown of product components into harmless parts that aquatic life can feed on.
