

The secret of microfibre is the ultra-fine fibre that loosens and retains dirt and grease, without the need for chemicals. These properties make the microfibre extremely appropriate for professional cleaning. Wecovi cloths are made from 100% recycled PET plastic and now incorporate an accelerated degradation after use due to the special composition.

The General Cloth's thicker fibres and wedge shape construction rapidly absorb spills and remove dirt, grease and bacteria. You can even use it dry for a quick and easy dust.

APPLICATIONS

All surfaces according to manufacturer's directions.

<i>Product</i>	ICDWE01
<i>Size</i>	40 x 40 cm – Pack of 10

CARING FOR YOUR CLOTH

- For day-to-day use, rinse with warm water and allow to air dry completely after each use.
- Machine washing recommended as low as 30°C but for best results wash at 60°C with a small amount of washing liquid or powder.

 Do not use bleach or fabric softener.

TIPS

- Due to their plastic composition, microfibre cloths should not be tumble dried, allow cloths to air dry naturally.
- Available in Blue, Green, Red, White & Yellow
