

Aniline leather can become dry and look tired over time. LTT Leather Restore is a fantastic re-hydrating cream. It adds moisture and essential oils back into the leather to restore suppleness and flex to the fibres. Easy application with long lasting results.

APPLICATIONS

For use on Aniline leather only.

⚠ Not for use on Nubuck, Suede or Finished leathers.

EQUIPMENT

White, lint-free cloths

Gloves to protect your hands

<i>Product</i>	ILELT070
<i>Size</i>	500ml

INSTRUCTIONS

Step 1

- Simply spray the product onto a white lint-free cloth.

Step 2

- Wipe / clean surface using small, overlapping circular motions.
- Always clean one panel at a time.

N.B. Aniline style leather has a greater tendency to absorb stains than Protected/Pigmented leather - do not expect to remove all the marks.

If regular maintenance cleaning and protection is carried out, any stains will blend into the overall look of the furniture over time.

TIPS

- Cleaning with LTT Aniline Leather Cleaner on a regular basis will also help to keep your leather correctly re-hydrated
- Great for use on handbags and briefcases too
