

Formulated specifically for the safe removal of dye from leather without damage or colour loss to the leather. Dye transfer is the dyestuff from clothing, newspapers, fake tan, curry, etc., that transfers to the surface of the leather. It is more usually seen on light coloured, protected leathers.

#### APPLICATIONS

For use on Pigment Coated (P), and protected leathers only.

 Do not use on Aniline style leather or two-tone leathers.

#### KIT CONTAINS:

- Step 1 100ml
- Step 2 150ml
- Cloths and Sponge
- Instruction Leaflet

#### EQUIPMENT

- Lint-free cloths
- Gloves to protect your hands

Product ILELT050

#### INSTRUCTIONS

- Always use the products in the correct order Step 1 followed by Step 2. NEVER use Step 2 first.
- The longer the dye transfer has been on the leather the harder it will be to remove, so it is best dealt with quickly.
- Dye transfer can be permanent. If it does not come off with the products in the kit, please DO NOT be tempted to rub harder or use more aggressive products or methods. You may cause damage to the leather finish.

#### TIPS

- The use of LTT Ultra Leather Protect in conjunction with regular cleaning with LTT Lazy Leather will help prevent dye transfer on pale-coloured leathers
