

Remove surface soiling and easily lift dirt and grease with this special tack cloth.

APPLICATIONS

The safest way to clean Nubuck and Suede and remove the flattening and matting caused by body oils.

EQUIPMENT

1 x clean, dry sponge.

<i>Product</i>	ILELT080
<i>Size</i>	X2

INSTRUCTIONS

Step 1

- Wrap cloth around a clean, dry sponge.

Step 2

- Rub cloth all over the leather and you should see the soil beginning to pick up onto the cloth. It's very important to rub the leather in all directions.
- Turn your cloth over frequently to use all sides.
- You may see some colour transfer on your cloth, this is because most nubucks are not colourfast.

TIPS

- Do not use same cloth on different colour leathers as you may transfer colour from one leather to another
- Unlike liquid cleaners, the Nubuck Cleaning Cloth can be used to spot clean nubuck
