

This product, made up with fatty-acid soap and micro-granules of organic polymers, creates a protective wax film that enables fittings to be polished. It produces a lasting brightness.

#### APPLICATIONS

For use on THG gilded and luxbrass fixtures: polished or satin finish.

#### EQUIPMENT

Soft cloth and fine cloth included in kit.

Gloves to protect your hands.

<i>Product</i>	<b>IMETG010</b>
<i>Size</i>	100ml

#### INSTRUCTIONS

##### Step 1

- Lightly dampen the soft cloth and use it to take up a hazelnut-size knob of the product from the tub.

##### Step 2

- Apply over the entire piece in a forward / back movement (not circular) until the entire surface has been well cleaned.
- If the fixture has a satin, brushed or matt finish, please buff gently.

##### Step 3

- Take the fine cloth provided to gently buff off any traces of the product.
- Always perform the wiping action in the forward / back movement in order not to scratch the fixture.
- Your piece is now perfectly clean and as bright as the first day. It is efficiently protected against watermarks.

#### TIPS

- Please note that these are cleaning/polishing products not REPAIR KITS. If there is damage to the plating (mechanical or chemical) this product will not fix it
