

This wax and organic-soap-based cleaner creates a protective wax film that enables the fittings to be polished and produces a lasting brightness.

APPLICATIONS

For use on THG chrome and nickel finished fixtures: polished or satin finish. Renov'Rob eliminates stains of various kinds and removes oxidation marks.

EQUIPMENT

Soft cloth and fine cloth included in kit.
Gloves to protect your hands.

Product **IMETG020**
Size **100ml**

INSTRUCTIONS

Step 1

- Use the soft dampened cloth to take up a hazelnut-size knob of the product from the tub. (The grainy texture will not adversely affect smooth surfaces.)

Step 2

- Apply over the entire piece in a forward / back movement (not circular) until the entire surface has been well cleaned.
- If the fixture has a satin, brushed or matt finish, please buff gently.

Step 3

- Take the fine cloth provided to gently buff off any traces of the product.
- Always perform the wiping action in the forward / back movement in order not to scratch the fixture.
- Water will now bead on the item without adhering, therefore preventing limescale watermarks.

TIPS

- Please note that these are cleaning / polishing products not REPAIR KITS. If there is damage to the plating (mechanical or chemical) this product will not fix it
