

A silver dip with a basket. Keep silverware looking fresh and bright with a quick bath in Christofle's Flashargent cleaning solution. Helps remove tarnish and restore original shine even from irregular surfaces. pH 1.5

APPLICATIONS

Flatware, jewellery and decorative items.

EQUIPMENT

- Lint-free cloths
- Gloves to protect your hands

| | |
|----------------|----------|
| <i>Product</i> | ISICH030 |
| <i>Size</i> | 500ml |

INSTRUCTIONS

Step 1

- Dip pieces in this highly concentrated liquid for just a few seconds (3 is enough) and traces of tarnish will disappear

N.B. For best results, it is recommended to use this product after polishing

Step 2

- Rinse item thoroughly and carefully under warm running water
- Dry well immediately with a soft absorbent cloth

⚠ Do not allow stainless steel knife blades come into contact with Flashargent

⚠ When cleaning jewellery ensure that any steel or stone parts do not come in contact with the liquid

TIPS

- For extremely tarnished silver (almost black in colour) it is recommended to dip it first in Flashargent, which will loosen the oxidation, then polish with Christofle's Anti-tarnish Paste and then dip again
- This product is highly toxic-use with caution
