DR. BECKMANN COLOUR RUN REMOVER SACHETS

Dr. Beckmann Colour Run Repair's powerful formula safely removes unwanted dye (and nothing else) from whites and colourfast coloured fabrics – restoring them to their original brightness. Machine or hand-wash. pH 10 - 11

APPLICATIONS

For all white and coloured items, delicates, silks and woolens.

⚠ Do not use on synthetic fabrics.

WASH TEMPERATURE

30°C – 95°C

Product	LSRDR100
Size	2 x 75g

INTRUCTIONS

Machine Wash: x 2 sachets for 2.5kg dry laundry

Step 1

- Place dye-stained garments into the drum
- Set machine programme as directed by garment fabric. care label. DO NOT use detergent. Start machine

Step 2

- After 15 minutes: combine the contents of 2 sachets with 1 litre of water and pour into the detergent dispenser of the machine
- Never use economy, pre-wash or time delay cycles
- For tenacious staining, repeat process

Hand Wash: x 1 sachet for 1.5kg dry laundry

Step 1

- Completely dissolve the contents of 1 sachet in 6 litres of the hottest tap water that the garment care label allows. DO NOT use detergent. Add dye-stained garments, ensuring they are fully immersed. Leave to soak for a minimum of 4 hours, stirring occasionally

Step 2

- Remove garments wearing rubber gloves, rinse thoroughly and then wash with your regular detergent as usual. For tenacious staining repeat process

TIPS

⚠ Before use test for colourfastness: apply a small amount of solution on an inconspicuous area and leave until dry. If there is no change in colour, continue following the instructions above. Always rinse tested area with warm water per garment care label instructions

⚠ Beware: Pay attention not to splash other garments when working with this product
